

East Hills 4-H Club Open House August 26th

Come and visit us during our Open house being held Monday, August 26th, from 1-3 pm at Creekside Church, 951 MacArthur Blvd., San Leandro, 94577

Talk with our members and parents about **Projects** that will be offered this upcoming year. Here are just a few: Archery, Knitting, World History, Digital Art, Physics, Table Games, Film-making, Organic Gardening, Hiking, community gardening and many more. We learn by doing in 4-H!

Learn about the **Events** held by our club and the county for 4-Hers and the public. These include Presentation Day, Game Night, Small Animal Field Day, Summer Camp, Film Fest, Bowling Day and many more.

Find out what members **learn and do by being in 4-H**. Along with project based learning, 4-H provides opportunities for public speaking, leadership (our youth run the club), record keeping, community service and citizenship. Members can also start projects (with an adult volunteer) about their own interests that can turn into multi-year projects. Members will have examples of their work so you can see just what our members do in 4-H.

We meet at homeschool friendly times, and welcome new members ages 5-18. For more information, please contact Kris Konrad at info@EastHills4H.org or visit EastHills4H.org
